Quam hoc Moderum Orlandi Lassu Belgii opus (Rex praestantiss. tibi val. merito dono datus dicatur, nempe ab autore Gallo, a typographo nro: a magis Verbo clare libenter precorito commendatur. Orlandum tu nuper ob excellens ingenium admirabilemque varietatem singulari comitate & munificencia profectus es gratumque tibi Adriani obsequium esse ostendisti. Ego vero qui incredibili musiq. voluptate afficior, non possem ad laudem & peccatorem doctorem attamen signum non vehementer occendi. Itaque in canonum francicarum libro Orlandi effugit epigrammata, Moderum eius Alberti Bauari Ducis Philomusum Elegia cenari. Quaequidem par in te vel superior non mediocrem quoque commendationem a me suo quodammodo tunc efflagit. Nam quam in venandis vultu belli ludicio Cyropediae Xenophonis exemplo corpus accuratè exercitas, quumq. potè ex P. Rosfordi, Stephanus, bodellij officina animi excolas, ut meum in laevis auro velere tibi haud displicuisse immo locum Musae etiam illas gerunt amor praecipuo tenetis. Quam (amant) qui in principe salu infundant tanquam ad perpetua armorum metalla danteo, namque persequuntur Pulvis imperatoris prudentiam Martis manibus Musis consecratus, ut doceret confectio bello honestissimam in pace Mithrae oblationem. Etiam reges qui in tantis vitae periculis laboribusq. versantur, ut vique ad exitum spatum nullum propè tranquillum spiritum ducant, certum est hac potissimum modulations indigere. Nec minus quidem indolens repentinè potè bene continere hominis naturae, quàm harmoniae studium & voluptas, quando in Macrocoeli corpore partem humorumque temperes & concordia quadam sanantem, & contrariis discordia morbum pariat atq. epyrodiam. In animi autem faciliatibus illa ingratum & solentem, huc ralem habentemq. ignorantiam & cordacem. In cultu vñ compleri (teste libro de Rep. Cicerone) nihil què inderet aures oculum Ingeni & pendulus sonus, qui interclusus conuictus in partibus impellit & motu arthum confabatur, qui actus cum grauius temperans vatos equibatur coarctatus efficit. Sicut potè & solutius voci respondens, bellus sipe immanes eorum secluratur atq. consistunt nos in istud rebus optimis non suam illa Symphoniarum voce moueamur. Orpheum enim canunt potè sacra monitè testudum sonor & Anora (quam mota mota sese è nam aduina, dictata prius coarctasset) harmonia delphinum affectum vedorem se praestasse periculisq. liberatè. Postmodò addam valem nullo quod Alexander die magni edicto venit nè ab alio quam Apelle pingentur, nè ab alio quam Lyippo singentur, item ubi puer in hac arte facientem, nè cuiusq. pedes nisi Orlandi velat Coryphi catus in ade ma palatibus eorum te voce tibi q. celebrantur: quippe qui eorum doctore praestantè in omni genere, tenui, modicoq. subtilitèq. concertum facile reliquis vras amittellat. Hac ego Rex magnificentiissime, qui tibi quondam velles laevis aureum egregia pictura infigue nè terando quidem aereo renueneram dices, quicq. transire T. Linq. hilonam (sicq. inchoata pendet) aliq. ingenu monumenta (si faueri libetisq.) mactas tunc prino quoque tempore consecrabo.
